FIFTY-FIRST ANNUAL REPORT

of the

LOCAL GOVERNMENT BOARD

of the

PROVINCE OF SASKATCHEWAN

for the twelve months ended December 31

1965

104-01458/

Regina, Saskatchewan,
January 31, 1966.

The Honourable W. Ross Thatcher,
President of the Executive Council,
Legislative Building,
Regina, Saskatchewan.

Sir:

Under instructions from the Local Government Board and pursuant to the provisions of The Local Government Board Act, being Chapter 38, Revised Statutes of Saskatchewan, 1953, I have the honour to transmit to you the Report of the Local Government Board for the year ending December 31, 1965.

I have the honour to be, Sir,

Your obedient servant,

W. L. Haney,
Chairman.

Regina, Saskatchewan,
January 31, 1966.

The Honourable W. Ross Thatcher,
President of the Executive Council,
Legislative Building,
Regina, Saskatchewan.

Sir: -

The Local Government Board deals with a wide variety of local government activities and other matters. Its responsibilities range from control of gas and electricity franchises to the control and supervision of capital financing by municipalities, schools and publicly owned hospitals in the Province.

The Board's primary responsibility is, of course, to try to insure the long term marketability of Saskatchewan local government debentures. The Board has at its disposal a variety of tools to accomplish this task with two of the most important being:

(a) Control of the level of debenture debt charged against property; and

(b) Control and supervision of legal procedures followed by local authorities in issuing debentures.

Comparative figures on debenture borrowings by Saskatchewan local governments for each of the last several years are set forth in Tables I, II, III and IV below. These tables show that at $27,153,000.00 debentures signed and sealed by the Board in 1965 totalled more than in any year since the Board began operations in 1913. It is estimated that the 1965 figure will be exceeded by a substantial margin in 1966 because most of the debentures associated with Municipal Development and Loan Fund assistance will be processed during this period and because of an expected rise in debenture requirements by some of the larger cities in the Province. Some indication of the magnitude of the expected rise is clearly indicated by comparing 1964 city authorizations with 1965 figures in the table immediately below.

DEBENTURES AUTHORIZED BY LOCAL GOVERNMENT BOARD

	1964		1965	
	No. of Authorizations	Amounts (000)	No. of Authorizations	Amounts (000)
Cities	108	14,900	119	21,900
Towns	120	4,900	120	4,800
Villages	164	3,900	163	3,600
Rural Municipalities	118	2,100	34	800
School Districts	35	4,600	20	2,600
School Units	60	8,000	52	5,900
Union Hospital Districts	5	800	12	2,300
Rural Telephone Companies	18	200	19	400
Conservation and Development Areas	4	34	2	18
TOTALS	632	$39,500	541	$42,318

NOTE: (1) Many issues though authorized in one year are not sold until the next. Thus figures on authorizations as set forth above are not comparable with figures on debentures signed and sealed by the Board (i.e. issued) for corresponding years as set forth in Tables I, II, III and IV below. Further, all authorizations do not necessarily end in debenture issues; bylaws may be defeated at the polls, works may not be undertaken, etc.

(2) In 1963, 418 authorizations totalled $27,200,000.00 for all local authorities. The figures for cities were 108 authorizations totalling $11,500,000.00.

(3) Table V shows the growth and level of local government debenture debt over the years 1957 to 1964 (December 31). Total local government debt in Saskatchewan was rapidly approaching the $200,000,000.00 level at the end of 1964.

A feature of 1965 operations was the continued high level of debenture issuing by towns, villages and, to a lesser extent, by rural municipalities. Couple this with the fact that the school units issued over $5,000,000.00 in debentures during the year and it can be seen that the problem of analysing debt load and debt carrying capacity, especially in the areas outside cities, is becoming steadily more difficult. Up until seven or eight years

ago debenture borrowing by local governments was confined mainly to cities and city school districts. Now we have debenture issuing in volume by towns, villages, rural municipalities and school units. Moreover, every indication is that rising expectations in the Province will result in a demand for approval of debenture borrowings at a continuing high level. And the more these local governments borrow the more difficult it becomes to accurately determine the debt load upon property and, more importantly, to decide about the ability of individual local communities to bear added debt charges. Statistical and economic data available to the Board for the accomplishment of this task are becoming increasingly unsatisfactory for the job to be done.

Increased local government works and debenture issuing has resulted in a steeply rising work load for the Board's staff. In fact, the rate of growth appears to be accelerating. The increased work load, of course, is reflected in figures dealing with debenture issues. However, the scale of increase is more clearly illustrated by the following statistics.

	1960	1961	1962	1963	1964	1965
Debenture Applications (Capital)	188	200	203	249	477	330
Local Improvement Applications	201	246	297	313	382	442
Total of Above Two Items	389	446	500	562	859	772
Debenture Issues Signed and Sealed	182	196	241	291	279	429
Miscellaneous Applications	269	350	425	514	532	726

Dealing with the added work arising from the growing volume of business has been a major problem for the Board's staff and the Board is very grateful for the service given by its employees. To process all the work and give reasonably prompt service has become a difficult, and at certain times of the year an impossible task.

During 1965 there was a continuation of high interest rates with money cost, even for short term, rising well above 6% at the end of the year. Given the state of construction demand and the availability of credit it seems likely that interest costs will continue at the six to seven percent level; especially for our smaller local authorities.

Throughout 1965 it appeared that the resources of the construction industry serving local governments were being used to capacity and it was common for project estimates to be significantly below tender prices. It seems likely that this situation will continue in 1966 and, in the Board's opinion, local governments should seriously consider postponing projects where such a course appears possible.

On November 1, 1965, Mr. H. S. McMillan, Board Secretary and long time staff member, was appointed a Member of the Local Government Board.

A brief summary of Board activities over the course of 1965 follows below. Further details may be obtained by referring to the Appendices of this report.

240	Formal Board meetings were held;
541	Applications for debenture issues totalling $42,341,346. under various acts were dealt with;
429	Debenture issues were signed and sealed by the Board;
726	Miscellaneous applications were dealt with;
11	Budgets were examined and tax rates established as required under The Local Government Board (Special Powers) and (Temporary Special Powers) Acts;
36	Transactions in Sinking Funds under Board control were approved;
2	Municipal gravelling projects under Section 223 of The Rural Municipality Act were dealt with;
93	Transactions in R. M. Capital Trust Funds were approved by the Board as authorized in Section 202 of The Rural Municipality Act;
23	Transactions in other Capital Accounts were approved;
146	Agreements under The Housing Special-care Homes Act 1965 were approved.

Revenues received by the Local Government Board in 1965 totalled $69,134.78, with expenditures reaching $76,722.43.

Respectfully submitted,

W. L. Haney, Chairman,
E. B. McKay, Member,
H. S. McMillan, Member.
